REMOTE AND PRISTINE

Far North Queensland Sport Fishing at it'svery best

The Northern Exposure Charter is a far-reaching blue water charter. Guests depart from Cairns by fixed-wing aircraft to Lizard Island before boarding Blue Martini and heading for the remote waters extending from Jewell Reef in the north to the Ribbon Reefs in the South.

The lure of this charter is the abundant fish, variety of species and the remote untouched Reef. Keen anglers know that this area is largely un-fished and holds a remarkable bounty of sport fish including Giant Trevally, Spanish Mackerel, Cobia and Mahi Mahi as well as reef species such as Emperors, Coral Trout and Nannygai. These are fertile grounds for popping as well as jigging, trolling, soft plastics and saltwater fly fishing. The standard of blue water fishing here is unmatched. The usually calm seas from October to April allow for abundant fishing in the azure waters with some of the most breathtaking sights of the remote areas we visit. To make the most of this fishing phenomenon, in addition to the guided centre-consoles, the FNSF 40 foot custom-built game boat, Black Magic, is offered as an add-on for guests wishing to broaden their experience.

IN ABSOLUTE STYLE

And comforts you are accustomed to

This is serious fishing, and as with all FNSF charters, every Northern Exposure guest is equipped with the highest grade tackle and equipment, including top-end Shimano reels and custom-built rods. What sets this Far North adventure apart from its competitors is the level of service and the specialist fishing knowledge from our guides that guests experience. At the end of a hard day's fishing, they step out of the purpose-built centre-consoles and into the sheer comforts of the 70 foot mother ship Blue Martini. This is the time for guests to re-live the day's highlights on the GoPro footage, enjoy a drink on the sunset deck and savour a five-star dinner created by Blue Martini's chef from the finest produce that Queensland has to offer.

Perfect for groups of six, the Northern Exposure charter is fishing paradise for the angler who expects the very best. It's the perfect getaway for an unforgettable blue water fishing experience where quality will never be compromised and adventures never forgotten.

THE ULTIMATE LOCATIONS
